Master Supplier Portals: Tips, Tricks, and Automation

Supplier portals are essential to modern finance operations, but they often result in delays, rejected invoices, and manual workload. For credit teams seeking to take back control, this webinar offers practical, actionable strategies to drive better results. Led by Maya Cohen, Co-Founder & CEO of Monto, this session will cover:

- ✔ How to overcome common portal challenges, such as PO inefficiencies and invoice rejections.
- ✔ Steps to reduce manual tasks and optimize workflows across multiple portals.
- ✔ How Monto's smart connections transform supplier portal management on autopilot.
- ✔ Success stories from companies like Miro and Shutterstock, demonstrating measurable improvements in cash flow and operational efficiency.

Originally presented at NACM North Central, this session inspired teams at Imagine and Summit Companies to rethink their strategies. Now brought to NACM Connect, it's designed to help finance teams gain the freedom to focus on higher-value work.

Speaker Bio

Maya Cohen is the Co-Founder and CEO of Monto, the first platform built to automate supplier portal management from end to end. Monto's smart connections adapt to each portal's unique requirements, automating invoicing, payment tracking, and data validation—effortlessly. Monto has transformed A/R operations for companies like G2, Miro, and Shutterstock, helping them collect over \$1 billion. Under Maya's leadership, Monto has set a new standard for supplier portal automation, making B2B payments as easy as tapping a card.

Maya will share actionable insights and proven strategies to help finance professionals take control of their processes and embrace the future of B2B payments.
